

GIVING=THRIVING

February 1, 2022

Dear Friend,

We wish you a Happy New Year on behalf of everyone at Vivent Health. We hope January has been full of promise for a year of good health and great joy!

Our country continues to face many significant challenges, including the COVID-19 pandemic and our reckoning with racial and social injustices. But at Vivent Health, we're working to chart a different course forward. As we begin 2022, your commitment to our lifesaving mission offers vast opportunities and **great hope for a brighter future.**

Our *hope* comes to life in the fantastic successes of more than 12,000 patients and clients we're so fortunate to serve. Our journey together addresses hunger, homelessness, illness, isolation, poverty, and prejudice. Your ongoing support ensures continued successful outcomes for our clients and communities.

Our *hope* comes to life in the best-in-class care we provide to our patients and clients. Our proven health care and social services allow patients to live long and healthy lives. *Your giving = medical care. Your giving = mental health care and support. Your giving = housing. Your giving = so much more.* Thanks to your generosity, we're able to expand and enhance our services to impact even more lives and more communities.

At Vivent Health, we've set big goals to bring even more *hope* to life in 2022. *Your giving = opportunity.* We're grateful for our champions and donors, who make it possible for us to dream and achieve big. This year, we'll serve thousands of new patients and clients, and extend our reach and services into new locations.

Our ever-growing partnerships are crucial to providing these lifesaving services—including our partnership with you. Thank you!

As we step boldly into 2022, we remain resolute in our mission to be a relentless champion for people affected by HIV and do all we can to help them thrive—no matter what is happening in the world.

Let's Make HIV History,

Mike Gifford
President and CEO
